Beans, Beans, Beans!

Beans are an
excellent, low cost protein
source that are full of fiber
and flavor!

Try planting some
dry beans in a cup
with soil. Your child
will love to water
daily and see what
sprouts! Have fun!

There are over 40,000
bean varieties! Try a
new type today, such
as: Garbanzo, navy,
lentil, fava, or black
eye beans!

Beans can help stretch your food dollars.
They are a great source of
protein, just like meat. Cooking meals with
plenty of beans and a small amount of meat
for flavor will save money!
