

ARTICULATION AGREEMENT

Offered collaboratively by

CENTRAL WASHINGTON UNIVERSITY

And

Edmonds College

**Associate of Technical Arts degree in Computer Information Systems,
Network Technology and Administration**

For

**Bachelor of Applied Science Degree in Information Technology
Management, Cybersecurity Specialization**

Central Washington University (CWU) and **Edmonds College (EC)** hereby establish an articulation agreement leading to a Bachelor of Applied Science degree in Information Technology Management (ITM), Cybersecurity Specialization. The degree will be conferred by CWU.

This agreement will begin in the 2026-27 academic year. The parties to this agreement commit to offering this program until dissolved by mutual agreement. An evaluation of the program will be conducted every three years.

Students from EC will earn the Associate of Technical Arts (ATA) which will be used for admission to the Bachelor of Applied Science Degree (BAS) in ITM program, Cybersecurity Specialization; students must also fill out the major application as specified in the admission requirements. Courses being applied to the major at CWU must meet the minimum grades required for graduation. Additionally, students must have a C- (1.7) in ENG&101.

As per CWU Transfer Credit Policies, students from EC who have earned the ATA degree will be eligible to transfer additional credits as lower-division electives, up to the limits per CWU policy.

Upon meeting all graduation requirements as specified in the CWU academic catalog in effect for a student's program entry year, including completing all required courses and meeting program and university GPA requirements, a Bachelor of Applied Science degree in ITM program, Cybersecurity Specialization will be awarded.

Appendix A provides a list that describes associate degree and/or major course requirements, and a potential 2-year plan for CWU studies to complete the Bachelor of Applied Science degree in ITM program, Cybersecurity Specialization.

Tuition will be billed to each student at CWU's prevailing cost-per-credit rate for all courses.

Admission requirements for CWU are as follows:

- 1) A completed [CWU application for admission](#)
- 2) A non-refundable application fee
- 3) At least 40 transferable college credits at the time of application and a 2.0 or higher GPA. If the GPA is between 2.0 and 2.49, an applicant personal statement may be requested.

*Application fee waivers are automatically awarded in either of the following situation:

- a) The student has a cumulative GPA of 3.0 or higher and applies to the CWU ITM BAS within two quarters of completing their Edmonds College program or within six months after graduating. CWU will also reimburse the application fee for any Edmonds College student who enrolls in a CWU ITM BAS program and maintains a GPA of 3.0 or higher. This provision will remain in effect from the initiation of this MOU through the end of Spring quarter 2028, at which time both institutions will review this waiver to determine whether it should be extended.

Additionally, if the above scenario does not apply and the application fee is a hardship, students should speak to an admissions counselor for assistance.

All enrolled students are eligible to apply for financial aid at CWU. Each student's situation will be evaluated on an individual basis.

Students must apply for financial assistance through CWU's Financial Aid Office.
