<p>CAREER AND TECHNICAL EDUCATION Any course in which students gain skills required for success in current and emerging occupations.</p>	<p>Course must be 100 level or higher. See Academic Catalog. Most professional- technical courses qualify. See High School Counselor for details.</p>		

Courses are subject to change without notice. All Running Start courses MUST be pre-approved by your High School Counselor. It is the student's responsibility to ensure selected courses meet High School Graduation Requirements AND the student meets course pre-requisites. This is only a guide and does not replace meeting with your High School Counselor, looking at an Academic Catalog or meeting with College staff.

Note: Some courses may require additional pre-requisites that must be met in order to take the class (i.e. many sciences also require specific math placement). Refer to the Edmonds Community College Academic Catalog for more details at catalog.edcc.edu and click on "Course Descriptions and Objectives" on the left hand menu.

CD = Cultural Diversity: All students must take at least 1 CD designated course for college requirement.
