

Here's the profile from Young Bach! Appearing on the Web soon.

"Edmonds CC was a turning point in my life."

"This is my first step for my dream."

Haeyoung Bach

Music

Why Edmonds CC? Many people told me about Edmonds Community College's great English as a Second Language classes.

Before Edmonds CC I was studying Electronics at a Korean University.

Why now? I wanted to be a musician, but I was majoring in electronics. I really needed the change in my life.

Best college experience I passed the ESL test and started taking music classes. I found what I wanted to be and study. It was a big present for my life.

Favorite classes music theory and jazz-they were easy to understand and practical

Best advice to new students Edmonds CC can help students find their own way. Take all kinds of classes, if you don't know yet what you want to study.

On my iPod Ellie on My Milky Way by Ray Charles

What's next? I signed a contract with a music agency! I plan to release a few albums.

College goal after releasing a few albums I want to study music more. I want to transfer and get a music degree in a few years.

Dream job musician
