

**“Coming to the USA and to Edmonds Community College were the two main things that changed my life”**

**Trung, Nguyen (Anthony), VIETNAM**

One of my favorite phrases is, “your life can be changed if you can change yourself”. It was the first time that I had traveled outside of my country. It was also the first time that I had traveled so far from home – traveling thousands of miles to the US. I was sick with worry about my future and I missed home a great deal. However, after arriving at Edmonds CC, those feels changed and disappeared after a short time because I have never stopped attempting to alter myself in adapting the great and interesting studying environment of EdCC.

Let’s come to EdCC to discover the beautiful and multicultural smiles,

always placed on the lips of every school member. Those smiles which symbolize the warmth and enthusiastic hospitality will make you temporarily forget your nostalgia. Let’s come to EdCC to explore, that learning somehow cannot be thought as boring, because of the fully new and enjoyable teaching styles of the instructors with their Master’s and Ph.D. Degrees. The real world in each lesson and the modern updated technology in teaching are two of the EdCC instructors’ hobbies and purposes. And let’s come to EdCC to see a wide diversified offering of courses and majors that allows every student to nurture their dreams.

I am now pursuing a Nursing major in EdCC because my dream is to work in the field of social care & human health services or help people in the charity associations. I want to be able to ease patients’ soreness throughout the world because I know that being sick or injured is not an expectation of our lives.
