

“Meet people with differing cultures and languages from around the world... all in one place...”

at Edmonds Community College”

Chongruangsab, Supakin, THAILAND

## When

I decided to study abroad, I felt very nervous about all of the new things that I would experience...I was especially nervous about culture shock. Fortunately, Edmonds Community College staff and students helped me to resolve this issue. I found that culture shock can happen to every new student, just like me.

I got a warm welcome from academic advisors, marketing staff team, and international assistants when I arrived at Edmonds Community College. I felt happy, I made new friends and I had some fun. Moreover, I feel like a member in a big family.

I really like staff and faculty

here at Edmonds CC. They helped me with immigration issues, academic sessions, and registration. Edmonds Community College is a great environment for learning. The college has excellent education support; for instance, the library, many computer labs, and a learning support and tutorial center. In addition, Edmonds Community College has a huge international community. This is a strong point here. I have met many people with differing cultures and languages from around the world...all in one place. That's very amazing for me.

I am currently earning my Associate of Arts degree in business. When I graduate I plan to transfer to a four-year university....I want to be a real estate manager after graduation.
