20000 68th Ave. W, Lynnwood, WA. Periodicals Postage Paid at Lynnwood, WA.

POSTMASTER: Send address changes to:
FROM THE PRESIDENT

At Edmonds College, your success is our priority – especially now. We’re working hard during this challenging time to adapt and continue to provide our students with a high quality education.

COVID-19 UPDATE

We are now a COVID-19 vaccination site in partnership with the Snohomish County Vaccine Task Force. The vaccine will be administered by appointment only to eligible individuals. Please remember, the vaccine supply is still limited, and it will take time to vaccinate those who are eligible. Updated eligibility information, as well as information on how to get vaccinated, can be found at snohd.org/covidvaccine.

Although this has been a difficult time, we remain committed to student success and greatly appreciate our strong community and partnerships. We are resilient, and we will get through this together.

Be safe, stay well,
Dr. Amit B. Singh
Edmonds College President

POST-COVID REBOOT

MOVING AHEAD TOGETHER

At EC over the past year, we’ve learned to be nimble and how to quickly adapt to our ever-changing world, especially during COVID-19. We’re learning every day and making improvements – big and small – and we’ve seen our students and community do the same.

We’re proud to offer resources to our community, local businesses, and entrepreneurs as we begin to recover, recharge, and move forward. See what we have to offer below.

RESOURCES FOR ENTREPRENEURS:

- Business coaching
- Business planning assistance
- Customized training for employees
- Funding preparation assistance
- Entrepreneurial educational opportunities
- Resources for entrepreneurs and microbusiness developers in all stages of the business development spectrum from idea to growth and expansion.

TURN YOUR THOUGHTS INTO THINGS

Do you have a fantastic product idea, but don’t know how to get moving? The EC Facility Makerspace opens the college’s Engineering Technology Department to the local community and provides a collaborative space where ordinary people with extraordinary ideas can come together.

The makerspace is an 11,000-square-foot innovation sandbox with $2 million of state-of-the-art equipment and tools, and the training you need to turn your thoughts into things.

ACING COLLEGE DURING COVID-19

It might seem like we’re stuck in the upside down world from Stranger Things, but believe it or not, right now is the best time to attend college.

VIRTUAL COMPUTER LABS

Our virtual computer lab sets you up with all the software you need for your class, from the cloud - free.

From SolidWorks to Adobe Creative Suite, we’ve got you covered.

Need technology to study online?

EC has a limited number of Chromebooks, hotspots, and equipment to lend to enrolled students that need them. We will do our best to accommodate as many students as possible.

FINANCIAL AID PROGRAM

The Washington State Grant program gives more money to more students and is available for more types of programs.

Available to part- and full-time students of any age.

Don’t assume you won’t qualify!
- Full tuition and fees for many families
- Half of Washington families can get a grant
- Guaranteed funding to eligible students

Pay tuition in three payments.*
March 22 First payment or when you register.
April 23 Second payment due
May 22 Final payment due

*If you add a class after your due date, tuition for the additional classes will be due in 48 hours. Financial aid students who completed their files by the deadline and awarded financial aid students are exempt from the tuition due dates.

STUDENT HOUSING - OPEN NOW!

Right across the street from Rainier Place Residence Hall, Triton Court was built for Edmonds College and CWU students ages 16 and older who want to live in a community focused on student living.

- One, two, and three-bedroom units
- Laundry rooms on each floor
- Small study areas on each floor
- Units with furniture, full kitchen, and living room

Pay as you go

TRITON LOUNGE

The event must go on! Even the challenges of 2020 could not stop the event industry’s creative people who found ways to virtually produce events. This new year will prove to be the next step in this exciting industry with virtual and the return of face-to-face events.

Have you ever imagined traveling throughout the world? You’re not alone. In 2019, 37.37 million Americans traveled outside of the United States. Yes, COVID-19 has hit the travel industry hard, but it will bounce back.

EC’s Hospitality and tourism program will train you to help travelers design and experience their dream trips. Our certificate and degree programs will prepare you to work in any of the hundreds of jobs in the travel industry.

Curriculum has been updated to include new COVID-19 protocols that hotels, cruise lines, airlines, and tour companies have implemented to keep travelers and employees safe.

This is the best time to be in school to prepare for a new and exciting career in the travel industry!

Washington Aerospace Training and Research Center 10th anniversary

Interested in changing the direction of your life and your career in just 12 weeks?

The WATR Center opened in 2010 as an educational resource for career pathways in the aerospace and manufacturing industry. Managed through an operating agreement between Edmonds College and the Aerospace Futures Alliance (AFA), the WATR Center provides students with an experience that blends education with industry – the optimal environment for learning the skills required for getting hired into high-wage, high-demand aerospace jobs, in the shortest possible amount of time.

Since 2010, WATR Center has trained:
- Over 2,000 graduates working in the industry
- Over 1,500 incumbent workers
- Workers at 120 aerospace and manufacturing suppliers

Find out about events, certificates, and more.

Mathematics, Engineering, Science, Achievement (MESA)
You belong in STEM and MESA is here to support you every step of the way through your journey at EC. MESA is a STEM student support program that focuses on initiatives to improve diversity and retention of historically underrepresented students in STEM, including African American, Latinx/Hispanic, American Indian/Alaska Native, Native Hawaiian/Pacific Islander, and women students. MESA provides opportunities to develop into a competitive STEM transfer student and transfer successfully to earn a bachelor’s degree in STEM.

Resources MESA offers:
- Professional development, internship, scholarship, and fellowship opportunities
- Holistic academic advising, transfer assistance, and mentorship
- Exposure to a wide variety of STEM careers and role models
- Field trips to universities, research centers, and industry
- Access to the MESA Student Center and specialized STEM tutoring

HIGH SCHOOL?
DON'T GET LEFT BEHIND.

Here’s why more parents and students are choosing Running Start over online high school.

100% ACCEPTANCE RATE
While the process can feel intimidating and scary, in reality there’s nothing to worry about. 100% of juniors and seniors who apply to our Running Start program are accepted each year.

UNIVERSITY TRANSFER PROGRAM
EC college-level credits transfer. Through special transfer agreements, EC students can transfer directly into degree programs at colleges such as Central Washington University-Lynnwood, Washington State University, and University of Washington.

SIGNIFICANT SAVINGS
Earn tuition free college credits! Running Start allows high school juniors and seniors to take college level courses without paying tuition and receive both high school and college credit for classes completed.

MORE FLEXIBILITY
Running Start students enjoy the flexibility of taking classes anytime from anywhere. While most high school students are attending school virtually due to COVID-19, EC offers more flexibility with classes that meet at scheduled times and some that do not require online meetings at all.

BETTER ONLINE EXPERIENCE
Edmonds College has offered online courses for more than 20 years. Our faculty excel at providing critical support and enhanced learning environments with Zoom office hours, microlectures, virtual labs and field trips, and more. We also have a dedicated student-led team that focuses on helping students understand available technology.

ACCESS TO MORE CLASSES, CLUBS, AND SPORTS
Running Start students can choose from a wide variety of college-level courses (100 level or higher) and have access to extracurricular activities that all EC students can participate in, from student clubs to sports and service-learning opportunities.

Join now, apply at edmonds.edu/runningstart
Virtual STEM conference for girls grades 8-12.

Join us for our annual conference to learn about careers in science, technology, engineering, and mathematics (STEM).

Virtual STEM workshops, prizes, and more!
